FOUND—On Sunday the 23d inst., on the Owen-Turnpike road, a large breast-pin containing portrait of a gentleman. The person owning it can have same by calling at this office, and paying for this advertisement.

On Friday of last week Mr. Rankin, who resides in Scott county, near Ellettsville, was arrested on the charge of horse stealing upon information furnished by one Grant Bush, who is now in jail in New Castle on the same charge, and taken to Henry county for trial. He was accompanied by one of the best citizens of Ellettsville, by whom he would have proved his innocence, but when they reached New Castle Bush said that the charge was false and furnished Mr. Rankin the following statement or publication:

New Castle, Ky., Sept. 25th, 1883.

To the Editor of the Frankfort Roundabout:

Sir: In justice to Mr. Jas. Rankin and truth, I must say, so far as I know, he is innocent of the crime with which he has been charged. As it has been reported and generally believed he was arrested upon the charge of horse stealing preferred by me, I feel a sense of duty to exonerate him, so far as I know anything about the matter. It is true I was in company with Mr. Rankin on Monday and a part of Tuesday, August the 12th and 14th, but parted with him about noon, August the 14th, and did not see him from that time until he was brought to the Henry county jail on September the 21st. Now, in justice to Mr. Rankin and his many friends and acquaintances, you will confer a lasting favor by inserting the above in your next issue.

Respectfully,

Mr. Rankin was discharged Tuesday and will bring suit against the parties who arrested him.

Edison's Electric Light is a wonderful discovery, but not as wonderful as Hall's Catarrh Cure. Sold by all druggists.

Dr. John L. Smalley, a gentleman well known in this city, having served several terms as Sergeant-at-Arms of the House of Representatives, died at his home in Harrodsburg Wednesday of last week.

Five bids were received by the City Council Thursday night for the lease of the City Hall—one from a gentleman in Richmond, one from a gentleman in Winchester, and three from parties in this city—but none of them were opened.

A passing train set fire to the dry leaves and grass on the side of the Cemetery Hill Thursday afternoon, and the flames spread until nearly the whole side of the hill was burnt over and several large trees consumed. It did no damage in the Cemetery, however.

Peter Smith, one of the most prominent colored citizens, as well as one of the oldest residents of this city, died Monday evening about six o'clock, after a brief illness of nine days with malarial fever, aged 68 years. He was born a slave, but by hard work succeeded in saving money enough to purchase his own and his wife's freedom, and since that time has accumulated quite a comfortable fortune. By his quiet and gentlemanly bearing he had won the respect and esteem of all who knew him, and at his death a good citizen passed away. His funeral took place Wednesday morning at 10 o'clock, and was more largely attended than any similar occasion in this city in a long time.

Last Sunday afternoon a party of men filled themselves with mean whiskey and congregated just outside the city limits, on the Lewis Ferry pike, and for several hours amused themselves by yelling, cursing and fighting, much to the annoyance of the residents of that locality and persons passing down to the Sunday-school at the Chapel in Taylorton. The police went down to quiet them, but as they were outside the city limits the officers had no power to arrest them. A deputy sheriff was notified, but he claimed that it was the duty of the constable to attend to the matter, so the row went on, and those near by were compelled to put up with it. It certainly is somebody's duty to see that such disgraceful proceedings are put a stop to, and if the county authorities cannot preserve the peace down there the city limits should be extended sufficiently to take in the territory, or the police empowered to make arrests within a mile or two of the city limits.

Harp.

Mr. C. V. Bailey has thrown his old slipper away.

Mr. Jno. H. Scott has returned from a trip to Indiana.

Mr. Campbell O'ann will carry Ball Knoll for Assessor next election.

Miss Mattie McQuillan, of Harveland, is the guest of Mrs. Belle Scott this week.

The members of Pleasant Ridge Church are putting a new roof on the church building this week.

Old man Stigers has completed his spring wagon. The probability is that he will call on the widow Harwick first.

Mr. A. C. Scott says as there are so many making the race for Constable he will make one more of the jolly number, as it will not take many votes to elect any of them.

Died.—At his home near this place, Sept. 14th, Mr. Mead Smith, after about five days' illness. The remains were taken to D. B. Polagrove's for burial. He was very popular with all who knew him.

Died.—The wife of Mr. Charles LeCompte, Sunday morning at five o'clock, September 21st, after a long illness with consumption. She was a member of the Methodist Church, and was liked by all who knew her.

Mr. J. A. Violet is doing his best to put down K. C.'s in Bald Knoll. He is making a good start, but won't think he can find out at the widow Forthing's, unless he and Mat, Durall go halves.

A party of unknown men visited Mr. J. M. Durall last Saturday night, but found him at the widow Forthing's. They took him out and gave him a little trimming. Guess he will let the widow alone hereafter.

The case of Joe and Robert Davall for kidnapping was tried before Esquires Carr and Price at Pence's old mill, Thursday, Sept. 18th, and were acquitted, but was re-arrested by J. A. Violet, County Attorney. They gave bond of \$200 each to appear before the Esquires of Frankfort Tuesday, Sept. 23.

FRANKFORT ROUNDABOUT.

Entered at the post-office at Frankfort, Kentucky as second class available matter.

GEORGE A. LEWIS.
Editor and Publisher.

FRANKFORT, SEPTEMBER 29, 1885.

Franklin county horses brought up the rear in three out of the five races at Louisville Wednesday.

Please bear in mind that the blue pencil mark X on your paper indicates that the time for which you have paid has expired and you are requested to call around and settle.

The late meeting of Kentucky Conference sent Dr. R. Hiner as Presiding Elder to the Shelbyville District, Rev. E. L. Southgate to Shelbyville, Rev. D. A. Beardsley to Paris, and Rev. J. W. Mitchell to Winchester.

The question of subscribing \$50,000 to the stock of the Frankfort, Georgetown & Paris Railroad was defeated in the Georgetown, Newton and Payne's Depot Precincts, in Scott county, Saturday, by a majority of 174. In the Payne's Depot Precinct there was but one vote for it, and in none of the precincts was there a majority in favor of it.

There is considerable complaint on the part of persons residing between this city and Georgetown on account of a recent change in the time of the mail for the way offices leaving this city. The wagon leaves now three times a week at 8 o'clock, a. m., two hours and a half before the Louisville mail gets here and consequently their mail is two or three days old before it reaches them.

Mrs. Mary LeCompte, wife of Mr. Charles LeCompte, of Polegrove, this county died Sunday morning at the residence of Mrs. E. Macklin, near Woodlake. She had been in delicate health for some time, but no one dreamed her death was so near. She had gone on a visit to her husband's aunt, who was confined to bed, and while there was taken ill and death soon followed. The young husband has many friends in this city who deeply sympathize with him in his great affliction.

Green-Kendall.

A small company of relatives and friends of the family were gathered at the residence of Mr. Austin J. Kendall Wednesday morning to witness the marriage of his accomplished daughter, Miss Blanche, to Dr. Frank P. Green, of Little Rock, Arkansas. The large double parlors were thrown together, and beautifully decorated with flowers, and at noon the bridal party entered in the following order: Little Miss Grace Dodge, of Little Rock, bearing a bridal wreath, lend the way, and was followed by Miss Fannie Morrison and Mr. Oscar Davis, both of Little Rock, attendants, and they by the bride and groom. When they had arranged themselves gracefully about Rev. E. A. Penick the marriage service was performed by him in a solemn and impressive manner, and it was the universal comment of those present that it was one of the most beautiful weddings they had ever attended.

After congratulation those present sat down to an elegant lunch, which was greatly enjoyed by all. While the company were at the table they were favored with some delightful music upon the piano by Mr. Clarence Kendall, who has few equals as a performer in the city.

The bride was attired in a beautiful dress of white satin, trimmed with oriental lace, with bridal veil, and wreath of natural flowers—tuberose and snail. The groom, of course, wore the conventional black cloth.

The bridal presents were numerous, valuable, and very handsome.

The party left on the 227 train for their future home in Little Rock, where the groom has a large and growing practice.

Following is a list of those present:

Mr. and Mrs. Geo. E. Dodge, Mr. Oscar Davis, of Little Rock; Capt. and Mrs. George S. Coyle, Mrs. Wm. Clark, Mr. I. B. Keiser, Mrs. Wm. Downing and Mrs. E. A. Coyle, of Louisville; Mr. and Mrs. Will. Saffell, Mr. and Mrs. Addison Meriwether, Dr. and Mrs. J. S. Price, Mr. and Mrs. Richard Church, Mrs. James Heifer and son, Dr. J. G. Hatchitt, Miss Lillie Cleveland, Col. Jacob Corbett, Jr., Maj. D. C. Barrett, Maj. Henry T. Stanton, George A. Lewis, Mr. and Mrs. J. B. Lewis, Miss Belle Grant, C. E. Collins, George L. Payne, John Kiernan and George Vandalingham.

Dr. Gershad Kevorkian, an Armenian Turk, who is in this country doing himself for the missionary work in Turkey, delivered a lecture at the Christian Church Thursday evening. The audience was not large but an attentive one, and all were very much entertained by the Doctor's account of the treatment of Mohammedans who embrace the Christian faith by their own people, and of his own persecution after he became a Christian.

Acrostic.

My Julia Ann Smith, to her beloved husband,
Mr. Peter Smith, who died on this
life Sept. 24th, 1883.

IN MEMORIAM

Peace touched thy soul, hope reigned supreme,
Thy death had given its fatal sting;
Thy soul long knew the heavenly home,
And hastening thence, it came to thee;
Rest, spirit, rest upon me shine
Serenely as bright hopes of heaven.
Went I far from thy presence be driven?
I still am thine and thou art mine,
Thou wait for me on th' unseen strand,
Thou art my anchor fixed, I soon shall land,
I could not say death's ruthless hand,
So much thine works we may not know—
And only by his stern command.
To life thou hast passed, by death's keen blow,
Rest! though my heart is rent in twain,
Ere long, if called, I'll gladly go,
Such hope as thine I use my pain,
Though 'twill of thee I loved below.

THE HIGHEST AUTHORITY.

Upon a Subject of Vital Interest, Effecting the Welfare of All.

The following remarkable letter from one of the leading and best known scientific writers of the present day is specially significant, and should be of unusual value to all readers who desire to keep pace with the march of modern discoveries and events:

"A general demand for information is one of the most striking characteristics of the nineteenth century. The common people, as well as the more enlightened and refined, cry out with an uncertain voice to be emancipated from the slavery of conservatism and superstition which has held the masses in gross ignorance during a large portion of the world's history, and in the time of the 'Dark Ages' came near obliterating the last glimmer of truth. Dogmatic assertions and blind empiricism are losing cause among all classes of all countries. People are beginning to think for themselves, and to regard authority much less than argument. Men and women are no longer willing that a few individuals should dictate to them what must be their sentiments and opinions. They claim the right to solve for themselves the great questions of the day, and demand that the general good of humanity shall be respected. As the result of this general awakening, we see, on every hand, unimpeachable evidence of progress and improvement. People who, a few years ago, regarded suffering the most intense in the name of duty, now realize the utter foolishness of such a course. Men who were under the bondage of physical ailments, and recommended to deprive their constitutions to become undermined, and finally died as martyrs to a false system of treatment. There are millions of people filling and emptying graves who might have lived to a green old age, had their original ailments been taken in time or properly treated. There are thousands of the first groups of some serious malady and without the slightest realization of the danger that is before them. They have occasional headaches; a lack of appetite one day and a ravenous one the next, or an uncontrollable feeling of weakness, or nervousness accompanied by nausea and attribute all these troubles to the old idea of a 'stomach cold' or malaria. It is high time that people awake to the knowledge of the seriousness of these matters and emancipated themselves from the professional bigotry which controls them. When this is done and when all classes of physicians become bold enough to exclude all dogmas, save that it is their duty to cure diseases as quickly and as safely as possible; to maintain no other position than that of truth honestly ascertained and honestly and recommended; any remedy that has been found useful, no matter what its origin, there will be no more quarreling among the doctors, while there will be great rejoicing throughout the world."

"I am well aware of the danger that will be meted out to me for writing this letter, but I feel that I cannot be true to my honest convictions unless I extend a helping hand and endorse all that I know to be good. The extended publications for the past few years, and graphic descriptions of different diseases of the kidneys and liver have awakened the medical profession to the fact that these organs are greatly increasing. The treatment of the doctors has been largely experimental and many of their patients have died, while they were casting about for a remedy to cure them."

"It is now over two years since my attention was first called to the use of a most wonderful preparation in the treatment of Bright's disease of the kidneys. Patients had frequently asked me about the remedy, and I had heard of remarkable cures effected by it, but like many others I hesitated to recommend its use. A personal friend of mine had seen in poor health for some time and his application for assistance on his bed had been rejected on account of Bright's disease. Theoretical and microscopic examinations of his urine revealed the presence of the same kind of abnormal and granular tube casts which confirmed the correctness of the diagnosis. After trying all the usual remedies, I directed him to use this preparation and was greatly surprised to observe a decided improvement within a month, and within four months, no tube casts could be discovered. At that time there was present only a trace of albumen, and he felt, as he expressed it, 'perfectly well' and all through the influence of Warner's Safe Cure, the remedy he used."

"After this I prescribed this medicine in full doses in both acute and chronic nephritis. (Bright's disease) and with the most satisfactory results. My observations were another small in number but hostile nature. They extended over several months and embraced a large number of cases which have proved so satisfactory to my mind, that I would earnestly urge upon my professional brethren the importance of giving a fair and patient trial to Warner's Safe Cure. In a large class of cases where the kidneys are diseased in an incipient state, especially where glandular engorgement is an inflammatory condition, exist, indeed in many of those forms of chronic inflammation in which there is no evidence of organic mischief, but where the general health is depleted, the face sallow, the urine colored, constituting the condition in which the patient is said to be 'bilious'; the invigorator, given by the use of this remedy is remarkable. In Bright's disease it seems to act as a solvent of albumen; to soothe and heal the inflamed membrane; to wash out the epithelial cells which block the ureters, and to prevent a destructive metamorphosis of tissue."

"Belonging as I do to a branch of the medical profession which has a long school of medicine knows all the truth regarding the treatment of disease, and being independent enough to select any remedy that

will relieve my patients, without reference to the source from whence it comes, I am glad to acknowledge and commend the merits of this remedy to you frankly.

Respectfully yours,
R. A. GUNN, M. D.
